MAKES YOUR HAND SANITISATION EFFORTLESS

**Hand sanitisation has become a regular part of our day to day activities and will continue to in the future.**

Automated contactless hand sanitising units make it easy for your customers to sanitise. Multiple stations throughout a facility improves regular hand sanitising between activities, such as:

- ◆ Aged Care
- ◆ Medical Facilities
- ◆ Gyms
- ◆ Supermarkets
- ◆ Offices
- ◆ Restaurants

AGA Newserv provides the complete package, stand alone dispenser, sanitiser (5 litre) and training for your staff Nation wide .

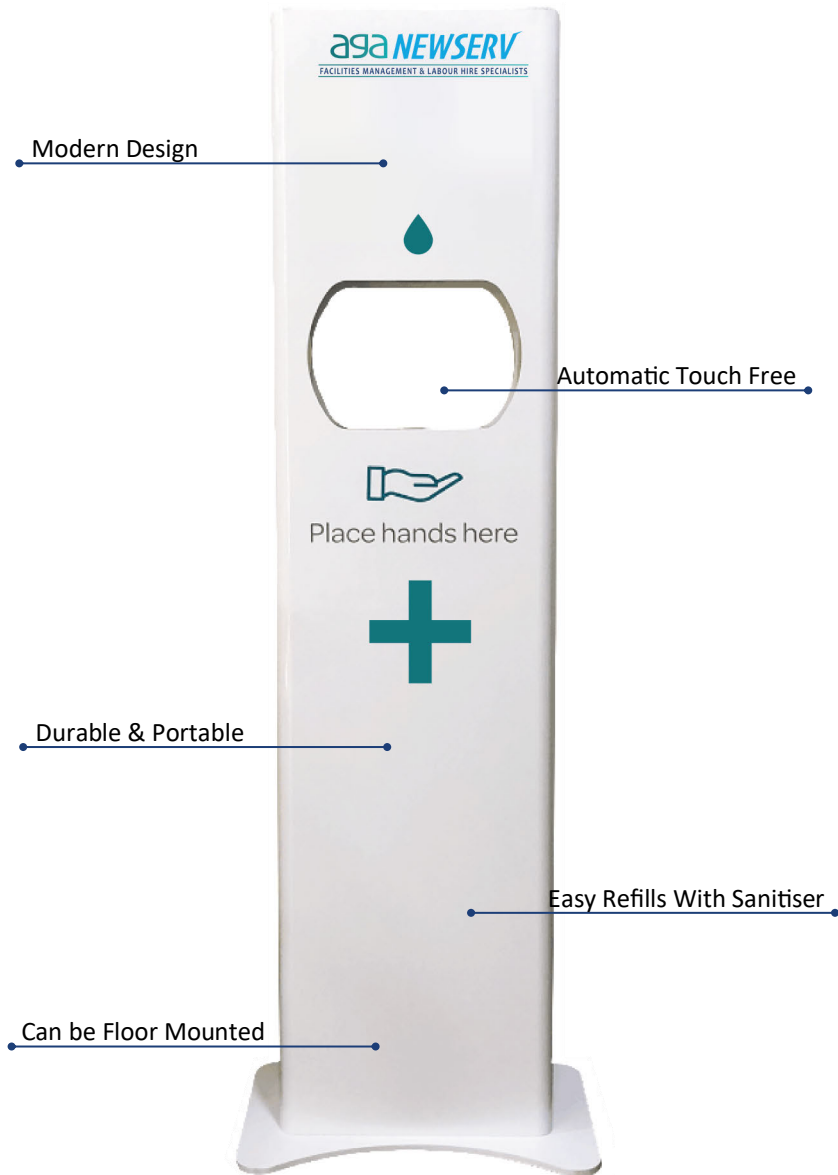

This is the most effective way of hand sanitising among large groups of people within a commercial environment.

***Low cost- High Clean***

MAKES YOUR HAND SANITISATION EFFORTLESS

## Clear Benefits

- 100% touch free
- Acts quickly to kill micro-organisms on hands.
- Requires less time than hand washing.
- Less irritating to skin than soap and water.

Hand sanitisers can help protect you from infections -both viral and bacterial- when used correctly

Hand sanitisers are recommended by healthcare professionals in clinical settings, as they've been shown to reduce the spread of numerous hospital-borne bacteria and viruses.

Size: 1405mm H 450mm W  
Materials: Aluminium, Polycarbonate, Steel.

Your customers can sanitise in-between activities
